

26th September 2024

Discontinued Tecom Products

Effective 1st October 2024, the following product updates take effect:

TS0816 – Challenger V8 Control Panel - End of Life

After almost 30 years, we formally say farewell to the Challenger V8 product. The Challenger V8 has been discontinued for more than 10 years, and support is no longer available via Aritech or Tecom distributors. Customers are encouraged to transition their V8 systems to the ChallengerPlus or Discovery Control Panel to continue operating with a supported system.

For more information on the suite of Aritech control panels, please visit our [Aritech website](#).
